Regardless of the size of your fleet, you can quickly identify where vehicles are to where they should be, managing the tracking from your company's own web connection. Set travel boundaries, assess down time and idling as well as receive management reports on all vehicles in the program. AGC/C is pleased to have SageQuest, Inc. as our partner, providing this beneficial service at a significant discount rate. Contact Chris Shodd, (216) 701-1068 for further details. ■
